Have you been saying “Someday” for a long time about participating in Archives work?

Celebrate with us: We have now completed the sorting of the 500 archive file drawers!

Now we are anticipating a flexible schedule toward the ICA Archives Website “launch” with the ICA USA Board November 22. The time is even more flexible than the chart above indicates.

- Come to Chicago in October to sort the remaining files. Join others - like Pam and Terry Bergdall, Kay and Geoff Nixon, Duncan Holmes and Ruth Gilbert - who have been assisting in this task.
- Search your files for stories, models and insights that the world would benefit from knowing about our work for the past 60 years. Scan the files and email them as a PDF.
- Plan to attend the Prep, the Sojourn and/or The Wrap Up to enable the launch of the ICA Global Archives web page to the general public on November 22.

The next two months represent a time for great celebration of the work of ICA colleagues around the world.
